

# LEADERSHIP MADE SIMPLE

## The 8 Hour Makeover

**Our interactive retreat** focuses on leadership development for both study clubs and dental practices. We emphasize the leadership potential of every individual and the role they play in a successful study club or dental practice.

**Successful leaders** work to understand the invisible elements of leadership in order to bring forth the best in those around them. Learning to recognize the beliefs and assumptions behind the data that we choose to interpret is a critical step in developing our personal leadership style.

**In one day**, retreat participants will learn how to utilize their strengths to help themselves and their staffs take their leadership abilities to the next level.

*“The essence of leadership training lies in understanding the potential within all individuals to influence their environment and the people they encounter. Exceptional leaders understand that they must always work harder on themselves than they do on their jobs.”*

– Greg Zlevor, President  
Westwood International

### Learn...

**About** the invisible part of leadership.

**How** to see what most leaders miss.

**How** to be completely present without being hooked.

**The** latest research in emotional intelligence.

**How** to identify the beliefs and assumptions behind your actions

- Conflict Resolution
- Crisis Skills
- Teambuilding Exercises
- Communication Training

### Program Benefits

- Motivational Session
- Staff/Club Member Appreciation
- Increased Profits & Productivity
- Improved Work Performance
- Serve Patients Better

*“This seminar has reaffirmed the commitment of the Seattle Study Club’s development of their members. It is one thing to sit and have someone talk at you for a whole day with little regard to what you think, but this type of workshop, where we had the chance to relate and integrate with others – is just a great opportunity!”*

– Jim Lillenberg, DDS  
Member, Gateway Study Club
